## Wheeled bins

In order to comply with the MRC Vallée-de-la-Gatineau Waste Management Plan, the municipality of Bouchette has decided to implement the mandatory use of wheeled bins for garbage and recycling collection.

Each property with a dwelling on the evaluation roll is billed on its 2019 municipal property tax bill for a garbage bin and a recycling bin at a cost of \$87 each.

This cost has been removed from the property tax bill of those who purchased their bins from the municipality since the implementation of the voluntary wheeled bin purchase program.

The municipality will also credit those who notify us that they have bins which are deemed to be compliant.

As for other properties—those with more than one dwelling and those paying the mobile trailer tax—these costs will be adjusted in accordance with the applicable regulation over the course of 2019.

With the advent of this new collection system, the building with rubbish bins located behind the fire station will no longer be accessible.

We are fully aware that these changes will require all to make adjustments and we ask all of you for your collaboration.

The municipality will take care of distributing the wheeled bins.

As soon as this new system is in place, we will be notifying you via the municipality web site: [www.bouchette.ca](http://www.bouchette.ca).

Furthermore, we encourage you to regularly visit our web site to stay up to date regarding various municipal issues. You can sign up to receive municipal email updates by contacting us at [info@bouchette.ca](mailto:info@bouchette.ca) to let us know you wish to be included in our mailing list.

Do not hesitate to contact us if you have any questions.
